Submission and Evaluation of Proposals Assent Disclaimer

Please read and accept this disclaimer to proceed with the creation of your draft proposal:

Proposal pre-registration data

1. In order to plan the evaluations, the Commission services need access to a limited amount of information about your draft proposal (the so called pre-registration data) prior to call deadline. The pre-registration data is limited to: call, topic, type of action, Participant Identification (PIC) code of the participating organisation(s), project acronym, short summary and - where applicable - panel and keywords. **Neither the Part B nor any annexe(s) form part of the pre-registration data that can be accessed by the European Commission services before the call deadline.**

2. You do not have to list sensitive/confidential information in the 'Short Summary' (entered on Step 3). Where relevant, sensitive/confidential information can be added to the 'Abstract' field in the Part A administrative form at a later stage in the submission process; this Abstract is not included in the pre-registration data. Therefore, please provide as the 'short summary' the relevant information (keywords, non-confidential information) for the planning of the evaluation.

I agree that the pre-registration data becomes available to the European Commission services prior to call closure.

I wish that the pre-registration data does not become available to the European Commission services prior to call closure. (Applicants are advised to use this option only in well justified cases, as it hinders the planning of the evaluation process and the timely processing of proposals).

Part B

3. **File format:** For the Technical Annex (part B) you must use exclusively PDF ("portable document format", compatible with Adobe Acrobat version 5 or higher, with embedded fonts). Annexes might have an obligatory page limit. Please check for the number and type of mandatory or optional annexes for the call in the relevant call documentation. Annexes with excess pages where page limit applies, will receive a watermark upon upload to the system. Users will receive a warning when trying to submit an annex with excess pages.

4. **Time constraints:** Preparation and uploading of the PDF formatted technical annex may take some time. You should ensure that this has been completed in time, well before the call closure deadline.

Submission

5. Proposals must be submitted prior to the call closure deadline. Likewise, modifications to proposals or uploaded attachments are also required to be submitted prior to the call closure deadline or they will not be taken into account. Proposals may be submitted or withdrawn at any time prior to the call closure deadline. There is only ever one version of a submitted proposal, as submission over-rites the previous version.

Personal Data

6. We will process personal data in accordance with Regulation No 45/2001 and according to the "notifications of the processing operations" to the Data Protection Officer (DPO) of the Commission/Agency (publicly accessible in the DPO register). Read more on the [Legal Notice of the Participant Portal](#).
